

PUBLIC CEREMONY STRONGLY URGED

Commercial Club Directors to Discuss Exercises Attending Laying of Corner Stone of Postoffice.

SUGGESTION IS ENDORSED

Majority of Residents in Favor of Simple and Impressive Program—Three Weeks for Preparations.

The suggestion that the corner stone of the new postoffice building, Third and Chestnut streets, be laid at a formal ceremony has resulted in much favorable comment and is already crystallizing into definite action. Nathan Kaufman, president of the Commercial Club, stated today that a number of the business men had discussed the matter with him and that it would be taken up by the directors of the Commercial organization at their regular weekly luncheon tomorrow noon. He expressed the opinion that due notice ought to be taken of the event and that proper ceremony should be arranged. It is probable that a committee will be appointed by the directors tomorrow to arrange for the exercises.

It is stated that the contractors who are erecting the new building expect to be ready to set the corner stone in about three weeks. This will afford ample time to make preparations for the ceremony, but, it is pointed out, arrangements ought to begin immediately so there will be no occasion to delay this part of the work. It is believed by those who are interested in the matter that the program for an impressive ceremony can be arranged within a few days after the definite decision to hold public exercises.

The brick work on the building is rapidly nearing completion. The contractors expected to have the foundation completed this week but on account of the delay resulting from the rain recently this part of the work will not be finished before Wednesday of next week. Immediately after the brick work is finished the stone masons will begin setting the stone and within a few days after that time the corner stone will be set.

In order to accommodate the spectators who will desire to see the corner stone ceremony it will be necessary to lay a temporary floor on at least part of the foundation and make other arrangements around the site of the new building but it is known that the contractors will be willing to co-operate with the people here in this ceremony and will do their part towards making it a success. Some of the citizens who are taking an active interest in the proposed ceremony do not believe that it would be advisable to arrange elaborate exercises on account of the centennial festival later in the summer, but are heartily in favor of taking due recognition of this important step in the construction of the new postoffice home. Just what form the ceremony will take will likely be determined at the meeting of the directors of the Commercial Club tomorrow. The committee will then be empowered to complete the detailed program.

ADDITION TO BE BUILT TO LOCAL GROCERY ROOM

W. H. Reynolds Erecting New Store Room Adjoining His Building on South Chestnut.

W. H. Reynolds, proprietor of the grocery store on South Chestnut street, is building a new store room on the lot between his building and that occupied by Hazard Dry Goods store. The new room will have an attractive modern front. An archway will join the two rooms. Mr. Reynolds will use it in connection with his growing grocery business. He recently purchased the main room which he occupies.

FEWER COMPLAINTS ABOUT RECKLESS AUTO DRIVING

Police Are on the Alert Watching for Violators—New Order Issued by Mayor Ross.

Although the police believe that the practice of driving automobiles at an excessive rate of speed through the city streets has been practically stopped they are still on the alert for violators of the state law. Mayor Ross has issued an order to the police department that the law must be strictly enforced in this city and the officers are instructed to keep on the watch night and day. The order states that every motorist is to be given a fair chance to obey the law before prosecutions are filed and that the officers are to exercise their discretion in making arrests. The custom thus far has been to notify the speeders that they are violating the law but will be given another chance and must run their cars at a more moderate rate of speed. It is said that this practice has been effective and that motor cars are being operated in conformity with the law, except in a few cases. These are under the watch of the police, it is stated.

A half day was devoted to watching motorists Sunday. An officer was placed in each of the four sections of the city and while they found it necessary to stop several drivers and warn them against reckless driving no arrests of local people were made. Mayor Ross stated today that the police would continue their watch during the automobile season and that the law must be complied with at all times.

SCHILL PLEADS GUILTY TO ROBBING STORE ROOM HERE

Two are Given Sentences of From Two to Fourteen Years by Judge Swails in Circuit Court.

George Schill, whose trial on a charge of burglarizing the Thomas Clothing Company's store room in this city, was set for Friday, decided that there was too much evidence against him and today pleaded guilty as charged. William Travis, who was arrested with Schill, pleaded guilty when arraigned. Both were brought before Judge Swails and were sentenced to terms of from two to fourteen years in the state prison. Travis is sixty-one years old.

The confessed burglars were arrested in Cochran recently and were carrying in suitcases clothing and other stock which was identified by the managers of the local clothing store. They gained entrance into the room through the rear window after they had pried open the steel shutter. Matches partly burned showed that they had gone all over the store room in search of loot. Clothing was scattered about the floor. They carried away about \$250 worth of clothing and rain coats, all of which was recovered. The theft was discovered by Night Watchman Sensback when he walked into the private alleyway back of the store.

A number of witnesses were preparing to appear in circuit court against Schill tomorrow, but as he has pleaded guilty the case is now closed and the two men will be taken to prison within the next few days.

INVENTORY IS TAKEN OF PENNSYLVANIA PROPERTY

Representatives of Interstate Commerce Commission Are at Work in This City.

Representatives of the Interstate Commerce Commission are here taking an inventory of the property of the Pennsylvania Railroad Company. Several engineers accompanied the party and the report will be made in detail. The party came here in two special I. C. C. cars. The commission recently set out to make a minute appraisal of all railroad property. Several weeks ago the local property of the Southeastern Line was appraised.

It is stated that the report by the appraisers will become a permanent record for use in the future should any question ever arise as to the value of the property of any railroad company. Every part of the railroad property is included. When improvements are made or additions are ordered the minute reports on file can easily be brought to date. When the total report is compiled it will give for the first time the exact value of the railroad properties of the United States.

MUCH WORK BEING DONE AT THE PARK

Rubbish and Trash Being Removed and Grounds Put in Readiness For the Summer.

FLOWER BEDS ARE ARRANGED

Lads Interested in Announcement That Swimming Pool is to be Opened Saturday.

Saturday, if the weather is warm, all the thoroughfares in the city as far as the youngsters are concerned, will lead to Shields Park for on that day the city officials will open the swimming pool. During the recent period that the weather was very hot the lads were anxious to get into the tank again and have been anxiously awaiting official notice of the opening day. Some of the boys have been taking their "dips" in White River but the majority of them have waited for the swimming season at the park to begin. The tank was built at Shields Park to afford a safe swimming place for the lads and the officials desire to open it so that the temptation to go to the river will be removed.

Last year the dressing rooms were finished late in the summer and few, if any, of the girls of the city made use of the pool. The officials expect to set aside one day each week this summer when they can have exclusive use of the pool in the hope that a representative number will avail themselves of the opportunity. Mayor Ross announced today that if the girls showed sufficient interest in the swimming pool two days would be allowed each week for them.

An inspection has been made of the tank and it has been found to be in good condition so that the water can be turned in any time. Before this is done, however, it will be thoroughly swept and cleaned so that it will be in the best possible sanitary condition.

The street department is getting the park grounds in good condition for the summer. Workmen have been busy all week cutting the grass and clearing away the debris which has accumulated during the winter months. The play-ground apparatus is being placed in position this week. The devices have been repainted and repaired and will be ready for the children in a few days. No new devices were purchased this year because the appropriation for the park is limited and the committees find it necessary to curb the expenses wherever possible.

The park committee and the council are at the present time occupied with the proposition of building a shelter house at the grounds. This is held out to be one of the real necessities at the grounds. Residents who live in the opposite sides of the city feel the need for such a building probably more than those who reside near the park. Quite often during the summer months storms come quickly and in such cases there is no place for the picknickers and visitors to go for shelter. It is also pointed out that parents might feel safer with such a building on the grounds as they would know that the children visiting the park would have some place to go when storms occur.

The council has discussed the proposed shelter building but was unable to reach an agreement as to just what kind of a building ought to be erected.

Special attention will be given to the grounds this summer. Flower beds are to be set out and the park will be kept in a most attractive condition. It is expected that the grounds will be more popular this year than ever before and that hundreds of visitors will take advantage of the ideal picnicking location. Later a system of driveways and other improvements are to be made.

INSPECTION TO BE MADE MONTHLY

Sanitary Officer to See that All Garbage Containers are Covered as Required by Ordinance.

ORDER OF BOARD OF HEALTH

Official Notice Given that It is Unlawful to Throw Trash and Debris on the Alleys.

Beginning Monday regular monthly inspection of the city will be made by the sanitary officer to see that garbage is kept in closed water tight receptacles as required by the city ordinance. This method of enforcing the city regulations was approved by the city board of health and Mayor Ross and an official notice to the residents is published today. The ordinance requires that all garbage containers be water tight and that the alleys be kept free of all barrels, boxes, etc., for ashes and refuse.

The notice calls attention to the section of the ordinance which makes it unlawful for any resident to throw rubbish or trash in any alley in the city unless such debris is to be removed, burned or otherwise destroyed within twenty-four hours. It further provides that the trash thrown in the alleys must be removed or destroyed at the expense of the resident. It is unlawful to keep garbage containers in the alleys or streets. Such containers must be placed on the property of the owner so as not to obstruct the alley way.

The city health board is insistent that the regulations contained in the ordinance shall be rigidly enforced and that after due notice has been given residents violators shall be punished by prosecution. It is pointed out that the ordinance was designed for the protection of the general health of the city and that the best sanitary results cannot be obtained as long as garbage is permitted in open containers and residents are at liberty to throw debris and trash in the alleys and streets.

Under the terms of the ordinance the city garbage hauler is not required to take away garbage that contains glass, trash or even soap suds. All trash that will burn must be placed in a separate pile and destroyed. Ashes must also be kept separately.

Several complaints have been filed that persons not in the employ of the city have been removing garbage and have overturned the containers, scattering the contents on the ground. Such complaints have not been filed against the city haulers. The board of health is considering the complaints against the private haulers and may require each to procure a license from the city clerk. The city may then be districted and each hauler assigned to a single district so that the health board knows just where each hauler is working. It is believed that this plan will avoid many of the complaints now being filed.

YOUNT OFFERED \$5,000 IF HE WOULD LEAVE MUNCIE

Damaging Testimony Brought Out on Cross-Examination in Trial of Gene Williams.

Muncie, Ind., June 1—Bombs were thrown into the camp of the defense today by Lloyd W. Yount, who was being cross-examined in the circuit court here in the trial of Gene Williams, deputy prosecutor, charged with conspiracy to solicit and accept bribes. The points brought out today were:

That friends of the deputy prosecutor had offered Yount \$5,000 to leave town just before he submitted damaging testimony before the grand jury.

That the grand jury and Yount formed a plot which had as its end the arrest of the friends of the officials when they attempted to offer Yount "for a nice little trip to California."

Band Rehearsal.

Seymour Concert Band will rehearse at City Building Friday night 7:30 o'clock. All members urged to be present. j2d A. Steinwedel, Director.

ANTI-HUGHES COMBINATION IS ORGANIZED IN CHICAGO

Situation is Muddled by the Arrival of William Barnes, Jr., a Foe of Colonel Roosevelt.

By United Press.

Chicago, June 1—The campaign of Frank Hitchcock for Justice Charles E. Hughes appeared today to have united the anti-Hughes element in the stand pat Republican ranks with the Roosevelt Republicans in a concerted attack on Hughes with a possible agreement with Roosevelt as a prospect.

Around prospect row of candidates today there was every indication that a combine against Hughes is underway. The situation is muddled a bit by the arrival today of William Barnes, Jr., of New York, foe of the colonel. Barnes, it is said, may hold the key to the situation.

The arrival here of Senator Penrose of Pennsylvania was anxiously waited. There was an undercurrent of feeling that Penrose more than Barnes holds the situation in his hands. If he jumps to Roosevelt as it has been rumored he would, the battle is over, the politicians say. If he fights against the colonel, it is a free for all.

It is rumored today that Coleman Dupont, of Delaware, would withdraw from the race in favor of Justice Hughes swinging six Delaware delegates to Hughes.

PROGRESSIVES STANDING ON JANUARY STATEMENT

George W. Perkins Says They Will Support Any Candidate who is for Progressive Principles.

By United Press.

Chicago, June 1—George W. Perkins, of New York, brought the olive branch to the G. O. P. today after meeting Chairman Hillis, of the republican national committee. He announced flatly that the progressives will stand on the statement they outlined in January indicating they will support any candidate—not necessarily Roosevelt—who stands for progressive principles.

"I see in the papers and I heard on the train while enroute here that a lot of bitter feeling has been worked up between the camps of the different candidates," Perkins said. "This is unfortunate. As far as the progressives are concerned we will approach the convention in the spirit we indicated in our January statement. This is pre-eminently the time when the conventions should be for Americans first."

WAITE SENTENCED TO DIE IN ELECTRIC CHAIR

New York Dentist Tells Court He is Willing to Give His Life for Wrongs He Has Done.

By United Press.

New York, June 1—Dr. Arthur Warren Waite was today sentenced to die in the electric chair at Sing Sing some time during the week beginning July 10.

Before the confessed murderer of John E. Peck, Grand Rapids millionaire, was sentenced he thanked the court for the manner in which his trial was conducted. "I am willing to give my life in partial payment for the wrongs I have done others," Waite said in a speech to the court. "I only regret that I have nothing more than a life to give them. My soul will go on and on trying to make reparation for the wrongs I have done."

FEDERATION PRESIDENT

Mrs. Josiah Evans Cowles, of Los Angeles, is Elected.

By United Press.

New York, June 1—Mrs. Josiah Evans Cowles, of Los Angeles, Cal., was elected president at the General Federation of Women's Club in the balloting yesterday, according to an official announcement made before the convention today.

DROWNED IN LAKE

Chicago Insurance Man Meets Death Near Hammond, Ind.

By United Press.

Hammond, Ind., June 1—Frank H. O. Biermann, insurance manager, Chicago, was drowned early today when his automobile smashed through the side of a bridge and plunged into Lake George. His body was found by police who dragged the Lake. Biermann was unaccompanied.

Born to Mr. and Mrs. Harry Bobb May 31, a daughter, Harriet Blanche.

WILSON TO REJECT CARRANZA'S TERMS

Administration to Send Reply that American Troops will Not be Withdrawn at His Request.

NOTE FOR HOME CONSUMPTION

Officials Believe that General Tenor of Communication is Fiercer Than the Context.

By United Press.

Washington, June 1.—There will be no withdrawal of American troops from Mexico at Carranza's request. Instead the administration will issue a statement probably within a week or ten days informing Carranza of rejection of his request and calling attention to misstatements of facts about the Mexican situation contained in the latest withdrawal demand.

In framing the statement officials will go on the theory that the general tenor of the note is fiercer than the actual context; that it is chiefly a document for home consumption.

It will take issue with Carranza's claim that the Mexican government did not know that American forces were crossing the boundary in pursuit of Villa until days after the first hunt started. It will declare there was no agreement between General Scotts and Obregon not to send a second expedition after the Glenn Spring raiders.

In this connection the United States will doubtless insinuate that Carranza has not been co-operating with the American expedition.

FRENCH PREPARING TO SURRENDER HILL 304

Other Positions Torn by Pounding German Fire Have Been Evacuated.

By United Press.

Berlin, June 1—French are preparing to surrender Hill 304, last of the strongly fortified heights remaining in their possession northwest of Verdun.

Several French positions on the summit torn by the pounding fire of German guns have already been evacuated. The next general assault on the position probably will bring it into the hands of the Germans. From Hancourt eastward to the Meuse the German front is pressing steadily southward. The French are offering desperate resistance but are steadily falling back.

GAVIRA ON WAY TO CASAS GRANDES WITH COPY OF NOTE

Believed That Carranza General Will Demand Troop Withdrawal of Pershing.

By United Press.

El Paso, June 1—General Gavira, Carranzista commander in northern Chihuahua, is believed to be carrying a copy of Carranza's note to Casas Grandes where he will confer with General Pershing. Despite Pershing's instructions not to discuss American troops withdrawal from Mexico it is understood that Gavira will make such a demand upon Pershing.

Fine Strawberries.

W. L. Marshall, who takes a great deal of pride in his garden at his home on South Bill street, remembered the Republican force today with some very fine strawberries. He has picked ten gallons from his garden and expects to get that many more before the season is over. The berries are among the largest that have been exhibited here this year. He has eleven berry vines and plants in his garden besides many other vegetables.

Public Sale.

I will sell at public auction, Saturday at 2:30 p. m., my three room cottage, with gas, and lot at 313 West Oak street. Herman Gerdum. j2d

MEXICAN NGTE SHARPEST EVER

Charges Broken Faith In U. S. Pledges.

DOCUMENT HINTS AT WAR

Declares Acts of America Toward Mexico Would Justify War—Asserts That Promises Made by Generals Scott and Funston Not Kept.

Washington, June 1.—Withdrawal by the United States of its forces from Mexico in the interest of continued harmony and good relationship between the two countries, and that it make known in categorical fashion its intentions with respect to Mexico, a new note from the Carranza government was presented to the state department by Elizeo Arrendondo, Mexican ambassador designate to the United States.

In many respects the communication is one of the sharpest ever received by one government from another. Although not an ultimatum in the strict sense of the word, it charges that the continued presence of the American troops in Mexico cannot be considered other than unfriendly, and would justify the Mexican government in taking steps for the protection of its territory, although it is the purpose of Mexico, if possible, to avoid war with the United States.

Throughout, the note accuses the American government of bad faith, and charges the president with permitting to exist a state of affairs that is grossly inconsistent with the latter's repeated protestations of good will toward Mexico. It accuses Generals Scott and Funston with having pledged their word in the conferences of the border with General Obregon, that a new expedition would not be sent in pursuit of the Glen Springs raiders, and with having promised that the Pershing expedition would be withdrawn. It discusses the possibility that the president may be

keeping the troops in Mexico for political reasons, but challenges the assumption that such considerations would justify the American government in continuing to violate the sovereignty of Mexico.

With regard to the refusal of the United States to permit any shipments of arms to the de facto government of Mexico, the note alludes to the tremendous trade which the United States nevertheless continues to enjoy in selling arms and ammunition to the belligerent forces in Europe. The only explanation of such inconsistency, the note observes, is the possibility that the United States, under the protest of friendship, is actually preparing for war with Mexico.

Remarkable on the failure of the United States properly to aid the Carranza government in its efforts to restore peace in Mexico, the note refers to the long period during which the state department gave friendly encouragement to the same Villa, who is responsible for the recent bandit raids across the border.

The note, which is twenty-seven typewritten pages in length, was presented personally to Acting Secretary Polk. It was in Spanish and was signed with the autograph signature of General Aguilar, secretary for foreign affairs in Mexico.

Buys Virginia Newspaper.

Richmond, Va., June 1.—Purchase of the controlling interest in the Richmond Evening Journal by Samuel T. Clover of Los Angeles, Cal., owner of the Graphic of that city, and a former editor of the Chicago Evening Post, was announced here. Clover has already assumed charge.

Girl Killed With Rifle.

Zanesville, O., June 1.—Mabel Settles, thirteen, daughter of M. F. Settles, was shot accidentally through the neck and instantly killed by Harold Mayle, eight, when he was playing with a small rifle. The girl's mother is dead and she has been keeping house for her father.

Marshall's Lease House.

Washington, June 1.—The Vice-President and Mrs. Marshall have leased a house in Washington and will occupy it after July 1, when they will give up their apartment at the Willard, which they occupied last winter.

APPROVE PLANS FOR CONVENTION

G. O. P. Committee Meets to Hear Forty Contests.

CHICAGO HOTELS FILLING UP

New York, Ohio, Illinois, Massachusetts, Indiana and Pennsylvania Delegations to Occupy Seats in the Front Rows Nearest the Platform.

Chicago, June 1.—Members of the Republican national committee met in the Coliseum this morning to hear forty contests, involving the right of sixty-two delegates to sit in the convention.

The committee will hold daily sessions and expect to conclude its work Saturday so that the temporary roll of delegates may be prepared by Secretary James B. Reynolds of the national committee.

Comparatively little interest is being manifested in the contests this time, as a majority of them are in southern states, and the result is not expected to seriously affect the chances of the presidential candidates.

Final plans for the convention were approved by the subcommittee of the committee on arrangement of the national committee, which held its last meeting.

Sergeant at Arms William F. Stone of Baltimore announced the appointment of the following assistants: Chief assistant sergeant at arms, Colonel E. P. Thayer of Indiana; second assistant chief sergeant at arms, Guy V. Howard of Minnesota; principal assistant sergeants at arms, E. J. Kelley of Iowa, John J. Lyons of New York, Harry VanNess of Kansas, John W. Smith of Michigan, A. W. White of North Carolina, John R. Flavell of New Jersey, Alvah H. Martin, Jr., of Virginia, Frank K. Bowers of New York, Charles A. Ackerson of Oregon, Pen E. Chapin of New Hampshire and Hugh L. Martin of Missouri.

New York, Ohio, Illinois, Massachusetts, Indiana and Pennsylvania delegations will again occupy seats in the front rows, nearest the platform.

The delegates, alternates, press tickets and those to be given the different states for distribution by the national committee will be delivered next Sunday and Monday by Secretary Reynolds.

Mrs. Antoinette Funk opened headquarters for the American Suffrage association to work for the insertion of a plank declaring for national woman suffrage in the Republican platform.

It was reported that the convention managers of four "favorite son" candidates met to plan an offensive and defensive combination to combat the Roosevelt and Hughes sentiment, but the story was vigorously denied by representatives of all the candidates.

Another report circulated around headquarters was to the effect that at least some of the presidential candidates now in the field would formally withdraw before the convention meets.

Chicago hotels are gradually filling up with delegates and visitors to the convention.

RURAL CARRIERS CONVENTION

Approve Motor Delivery Where Roads Are Good All the Year.

Princeton, Ind., June 1.—The District Rural Letter Carriers' association in convention here chose Evansville for the 1917 convention, and elected J. F. Grimm of Armstrong, president; David Greathouse of Evansville, vice-president; Herman J. Becker of Boonville, secretary-treasurer.

Resolutions were adopted approving motor rural routes where the route can be covered by motor vehicles all the year. State Secretary E. J. Rogers of Monticello; Frank Moseby of Owensboro, president of the Kentucky association; L. M. Onyett of Ft. Branch, Ind., national committeeman, and Moses Ross, assistant postmaster at Evansville, were speakers.

Shackleton Safe.

London, June 1.—Lieutenant Sir Ernest Shackleton, the Antarctic explorer, has arrived safely at Port Stanley, Falkland Islands.

FRENCH ATTACK WINS POSITION

Germans Lose Point on Dead Man Hill Slope.

BATTLE RAGES WITH FURY

Teutons Take Two Advanced Trenches From French, But Lose One In Counter Attack—British Are Busy In German East Africa.

Paris, June 1.—The French turned on the Germans on the west bank of the Meuse during the afternoon and in a spirited assault occupied a strongly organized fortified German position on the southwest slope of Le Mort Homme, taking 220 prisoners.

The French assault came after a night and a day of heavy fighting in this region in which the Germans, pursuing their renewed offensive, had been the aggressors. Beginning in the afternoon a terrific battle had waged on the whole front between Le Mort Homme and the Meuse, with the Germans making repeated attacks. Preparations for these German assaults had been in the making for two days, the German batteries surpassing their previous efforts in the number of large caliber shells they hurled into the French positions.

In spite of this rain of shells, the French troops emerged from their shelters when the German infantry advanced and drove them back at every point. But the artillery fire had levelled a first-line French trench south of the Bois Des Caurettes, the west of Cumieres, and the French had to abandon this trench. This was the only net gain made by the Germans as the result of the whole series of artillery bombardments and infantry assaults.

South of the village of Cumieres the Germans converging upon the French lines from west and east of the village, forced the French to fall back along the railway for the time being in the direction of the Chattancourt station, to the east of Chattancourt village, but a counter-attack recovered the terrain lost and at the end of the action the French were back in their positions on the outskirts of the village.

In connection with the German attacks at this point, German detachments took advantage of the fog to make their way along the river bank to the height at the Chattancourt station, presumably there to co-operate with the forces operating from Cumieres. French observers discovered the presence of this detachment on the flank and the French 75's wiped them out.

The Austro-Hungarian advance on Italian territory has been carried further in the region of Asiago and Arsiero and, according to the official statement from Vienna, the Italians have been driven from Gallio and the heights to the northward. Monte Baldo and Monte Fiarro have been captured by the Austrians.

The British invasion of German East Africa has been carried further into the interior, and one of the British columns is now confronted with a German army which has taken up strong defensive positions.

FORD'S AGENT GOES TO RUSSIA

Believes War Will Not Last Much Longer.

New York, June 1.—Gaston Plantiff, representing Henry Ford, commercially, politically and otherwise, sailed by the Scandinavian-American liner Frederik VIII to take charge of the Ford tractor plow business that the Ford organization believes will revolutionize ploughing in Russia.

Apparently Mr. Ford believes the war will not last much longer and that possibly the soldiers will come out of the trenches before next Christmas. Anyhow he is going to have the machines ready to sell when peace comes.

Mr. Plantiff said that Mr. Ford might go to Europe after the Republican convention at Chicago. Dr. C. W. Huntington of Chicago, commercial attaché of the American embassy at Petrograd, also sailed by the Frederik VIII to act as mediator for Russian and American business folk.

Italian General Relieved.

Rome, June 1.—It is now known that General Brusati, commander-in-chief of the Italian Trentino army, has been relieved of his command as a result of the Austrian offensive, because, elated by the rapid Italian advance toward Rovereto, he neglected to build solid trenches lest time be lost in the occupation of the city. He therefore left the Italian troops exposed to the Austrian artillery, with the inevitable result that they were driven back when the Austrian offensive started.

Admit Teachers to Pension Fund.

Indianapolis, June 1.—One-fourth of all the eligible school teachers in the state have been admitted to participate in the teachers' pension fund by the pension board, according to the report of officers. Teachers from Marion county, Franklin county and Tippecanoe county recently were admitted to participation in the fund.

Give Your HOME Guaranteed Walls

Ordinary walls require more repairs than any other part of the house. This constant expense can be absolutely eliminated and your home made more beautiful by the use of Cornell-Wood-Board.

IS MEXICO SWINGING BIG STICK AT U. S.

Military Activity Follows Delivery of Note.

El Paso, Tex., June 1.—Three thousand Mexican soldiers left Villa Ahumada, marching westward in the direction of El Valle. General Gavira, commander of all Mexican forces in north Chihuahua, left Juarez for Casas Grandes. Mexican artillery is being centered along the Mexican national railroad line, between Juarez and Chihuahua. Minister of War Obregon has called upon all Mexicans, regardless of the past factional adherences, to take up arms and commissions in the army of Carranza.

Mexican Consul Maria, in El Paso, has posted a bulletin calling on all Mexican citizens living in El Paso to register at the Mexican consulate.

The above apparently unrelated developments of the past two days, together with the presence of the last Carranza note in the hands of the United States state department, are conditions that are daily increasing the size of the giant interrogation mark which symbolizes the mental attitude of the citizenship of El Paso.

"What's going to happen next?" is the cry of the border land. The military observers are beginning to wonder whether the presentation of the Carranza note and the completion of the movement of 30,000 Mexican troops in northern Chihuahua at the same time is a coincidence.

It is further believed here that the Mexican opinion, popular and official, is that Mexico now occupies a military position sufficiently strong to support its increased insistence with a demonstration of force.

ALLIES MUST MOVE FIRST

Austrian Minister Says Peace Proposals Must Come From Entente.

Budapest (via Amsterdam), June 1.—"So long as the responsible statesmen of England and France think as they speak, there is no chance of peace," declared Count Tisza, Hungarian prime minister and "strong man" of Austria-Hungary. Count Tisza was referring to the recent belligerent utterances of Sir Edward Grey and President Poincaré.

"The intervention of the United States will only be useful when both sets of belligerents are prepared to talk peace seriously," he added. "I doubt if this has arrived. The German chancellor's recent statements are proof of the central powers' readiness to end the war."

Unshaken Confidence.
Doc Braney has opinions that are curious but strong. He says, in spite of all the news, the world ain't going wrong. In spite of all the bitterness and readiness to fight, He thinks the world is toiling on an 'lookin' fur the light.

It's hard, when you are listenin', to suppress a little sneer. As, in the face of facts, he utters arguments so queer. But, while the cannon sounds afar, his head he sadly shakes, An' says the best intentions are delayed by men's mistakes.

He says the world is gropin' 'cause it's rather young as yet. An' hardly strong enough fur all the tests that must be met; An' when men seek too swiftly to attain the heart's desire, They are liable to stumble an' be landed in the mire.

He claims that sad experience must point out the better way. That's bound to lead mankind to health an' happiness some day; That the world is gettin' better, notwithstanding its distress—The way Doc talks is always mystifyin' more or less!

—Washington Star.

Come Back Anyway.

Meredith Nicholson, in his contribution to the "Come Back Home" invitation to the Indiana Centennial says in the course of his appeal: "Come back to your home town—to Peru and Balhinch and Ladoga and Seymour and see the new churches and the jails that were built specially for you."

We may have another new church building completed by then, but we hope it won't be necessary either to build a new jail or to enlarge our present one to accommodate our old friends who will be coming back next fall. We will have so many other nicer and better things to show them that we hope they won't even be interested in our jailing conveniences.

Fold up the flag you had up Memorial Day, but don't put it away where you can't get to it again soon. Flag Day comes on June 14th and the glorious Fourth isn't very far distant.

Speaking of rare items of news, any base ball fan will tell you that this one, in yesterday's baseball reports is a gem: "Alexander was batted out of the box in the fifth."

The correct pronunciation of the Peugeot car is claimed by some who assume to know all about such things to be Pay-go. At any rate, Mr. Resta's machine certainly pays its owner as it goes.

The vacation season won't get really interesting for Young America until the park swimming pool is opened.

With commencement festivities all over, the June bride will now take full and undisputed possession of the lime light.

The President and Ambassador Shea both made speeches.—Santiago Dispatch.

The official interpreter must have had a busy day.

Now if June will just deliver about thirty of those rare days of which Mr. Lowell raved we will give her a standing vote of thanks or anything else she may ask.

A lady walked into a local wholesale grocery store and accosted an employee thusly:

"Give me ten cents' worth of navy beans, please."

The employee explained that the house was a wholesale store and did no retail business.

"O, yes," replied the would be customer, with a light of understanding

in her face. "Well then, just give me a dime's worth of crackers, please."

As far as we can learn, no Memorial Day services were held for the Peace at Any Price leaders of the '60s.

83,000 people crowded into the stands at the Indianapolis Speedway Tuesday. Why doesn't the management put in a bid for the next Republican convention?

INDIANAPOLIS TEACHERS AFTER INSTITUTE WAGES

If Certain Faction Gains Control School Board May Be Made Defendant in Suit.

(By Dan L. Beebe, United Press Staff Correspondent.)

Indianapolis, June 1.—When the Indianapolis Teachers' Federation met this afternoon at Harrison school word was passed about that if a certain faction gained control the city board of education might be made defendant in a suit that would involve nearly \$75,000 in wages, which the teachers claim is due them under the teachers' institute law enacted by the 1915 legislature.

Whether the federation takes such action will depend upon the strength of a faction which will try to overthrow a recent ruling of the executive committee. This committee ruled that the report of the judiciary committee, recommending that suit be brought, should not go before the federation. Several teachers, it is said, will try to force consideration of the judiciary committee's report, asserting that the executive committee was afraid to do otherwise than smother it.

The United Press today obtained from John A. Lapp, director of the bureau of legislative information, a statement concerning the new teachers institute law. The crux of the difficulty between the Indianapolis teachers and board is that the board refuses to pay the teachers for attending the Saturday institutes, though the law provided that they shall be paid for attending these institutes "as for one day's teaching." It is not known here whether a similar condition prevails in other Indiana cities.

Mr. Lapp said it was evident from the law that teachers shall receive pay for attending the institutes.

The Indianapolis board went the law one better, according to the teachers, ruling that if a teacher did not attend one of these Saturday institutes he should be docked two days' pay—pay for days he has taught. Also, the board ruled that no pay should be given for attendance on these institutes other than that included in the regular annual contract.

The board has since modified its ruling so that if a teacher is absent from an institute because of sickness he is docked only one day's pay. The law provided for such a penalty.

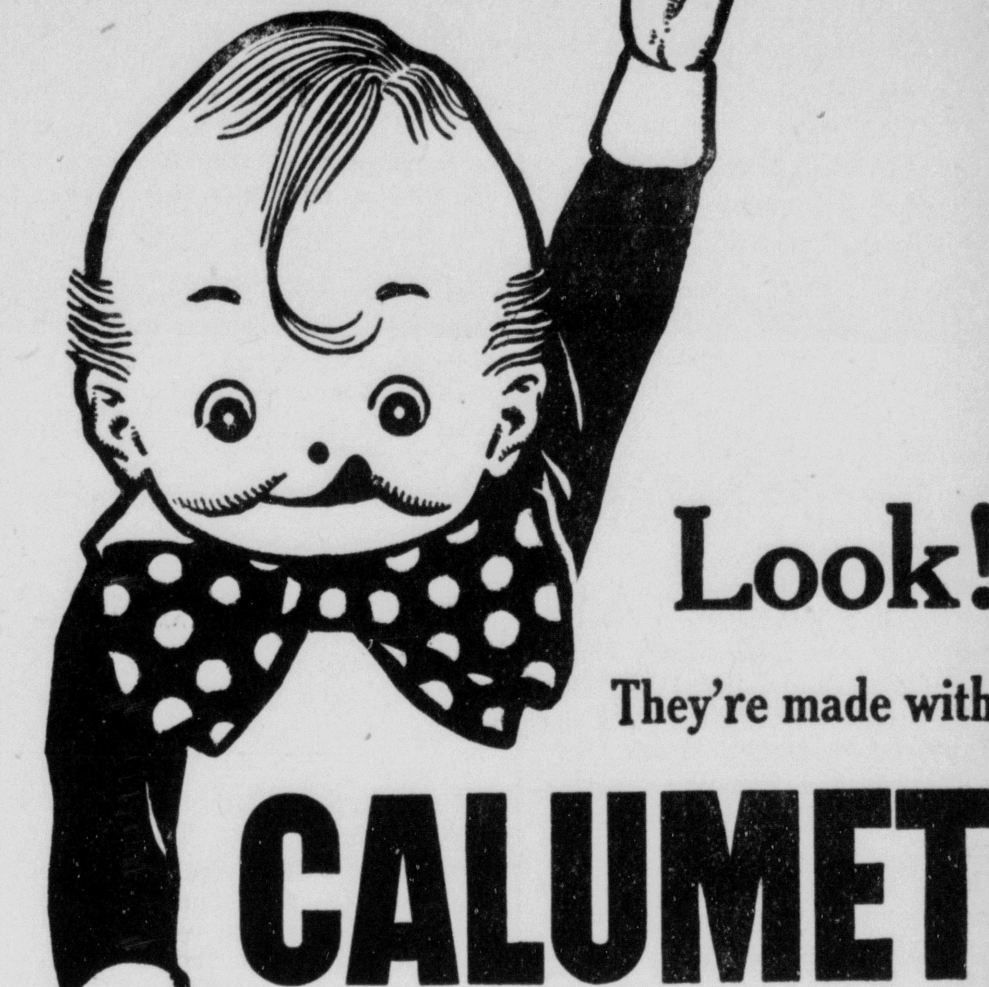

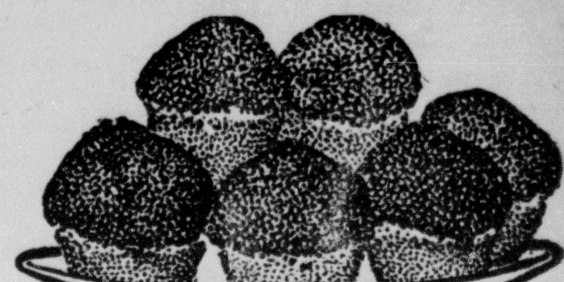

The board explains its action by stating that it has eliminated enough teaching days from the school year to make up for the Saturday institutes, but this does not satisfy the teachers, who assert that the law-makers did not intend that they should be forced to work an additional day for each of nine weeks in order to earn the money called for in their contract with the school board.

Some teachers insisted that the Indianapolis schools are living on past advertising that is not now merited.

Those teachers who were to try to force the city board into a law suit this afternoon said they feared they would not succeed because so many teachers "fear for their jobs." They said the executive committee had smothered the judicial committee's report because it feared to do otherwise.

Postal Guide "Marked Down."

Washington, June 1.—Placing of the postal guide in all commercial establishments is the aim of Postmaster General Burleson, and to this end he has reduced the price of the publication from \$3 to 20 cents. The reduction in price was made possible by a new contract whereby business men can be supplied with the guide at cost.

ANNOUNCES SELECTIONS TO BE GIVEN BY BAND

Director Steinwedel Arranges List of Music From Which Programs Will Be Given.

The Seymour Concert Band of fifty pieces will make its first appearance in public in the new uniforms next Sunday at the annual union Memorial service of the several local fraternal orders. The members of the band have been practicing for this event for several weeks and have the numbers well mastered. The first week-day program of the summer will be given in the business district on Wednesday night, June 7. The band will play in the business section of the city one night each week. The band will also appear at the park on one Sunday each month. The first appearance there will be on Sunday, June 11. Adolph Steinwedel, director of the band, today announced that the program for the first part of the summer would be arranged from the following selections:

Got Rid of My Corns With Magic "Gets-It"

Simplest Corn Cure in the World—No Pain, No Fuss. New, Sure Way.

When corns make you almost "die with your boots on," when you've soaked them and picked them and sliced them, when corn-swelling

Why Have Corns At All When "Gets-It" Removes Them the New, Dead-Sure Way? salves, and tapes, bandages, and plasters that make corns pop-eyed have only made your corns grow faster. Just hold your heart a moment and figure this: Put two drops of "Gets-It" on the corn. It dries at once. You can put your shoe and stocking on right over it. The corn is doomed. It makes the corn come off clear and clean. It's the new, easy way. Nothing to stick or press on the corn. You can wear smaller shoes. You'll be a joy-walker. No pain, no trouble. Accept no substitutes. "Gets-It" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Seymour and recommended as the world's best corn remedy, by C. E. Loertz and H. H. Carter

grams for the first part of the summer would be arranged from the following selections:

"Bits of Remick's Hits 1916"....J. Bodewalt-Lampe.

"Gems of Stephen Foster," American Fantasia.....Theo. Tobani.

"Sunny South Selection" of Southern Plantation Songs.....Bodewalt-Lampe.

"The Bell Cow," Novelty March....George Rosenkrans.

"Ada Polka," cornet solo....Booss.

"Tender Memories," waltzes....George Wiegand.

"Mignonette," Overture Facile....J. Bauman.

"Southern Stars," Overtures on Southern Melodies....Asher-Mahl.

"Memories of the War 1861-1862"....L. P. Laurendeau.

"Querida," Mexican Serenade....H. A. Vandecook.

"The Troubadour," Overture....Francis A. Meyer.

"Criterion Overture"....H. C. Miller.

"Jolly Blacksmith," Anvil Polke....Edward Bergenholtz.

"Songs of the Nation," Selections....Bodewalt-Lampe.

"Sea Flower Polka," Cornet Solo....T. H. Rollinson.

"The Great Comet," Overture....Charles J. Rockwell.

"LaPalome,".....Zradier.

"Gentle Dove,".....Bendix.

"Golden Scepter," Overture....R. Schlegel.

"Bohemian Girl," Selection....Balfe.

"Minnie Gavotte,".....Schlegel.

"Laddie and Lassie," Romance....Rosenkrans.

The band is continuing the practicing of new selections which will be added to the above list from time to time during the summer.

Will Nominate Marshall.

THURSDAY, JUNE 1, 1916.

A PUBLIC CEREMONY.

Seymour is justly proud of the handsome postoffice building which will adorn one of the prominent corners of the city and it seems entirely fitting and appropriate that the corner stone should be set at a public ceremony. This will be the only government building in the city and is to be one of the most attractive on our streets. The erection of a post-office building in Seymour is a recognition of the faith of the United States government in the future growth and development of the city, and proper ceremony should mark the step in the construction work when the building begins to take form.

The suggestion that the corner stone laying be attended by proper ceremony is popular with Seymour people. All the movement needs to be a success is for some body of citizens to get behind it with their influence and support. The public is ready to co-operate but like any other action of this kind, there must be a leader. It makes no difference if that leader is the commercial club, the council or other body of public spirited citizens.

The contractors will be ready to lay the corner stone in about three weeks. There is yet plenty of time to make arrangements and prepare an appropriate program. But the preliminary steps must be taken immediately. If the plans are formulated now there will be no delay in

the construction of the building. Those who have suggested the public ceremony are actuated by home pride and public spirit. We believe the idea to be an excellent one and there is every indication that proper recognition will be made of the city's appreciation of this handsome building.

Charles W. Fairbanks, Indiana's favorite son for the Republican presidential nomination at the Chicago convention next week, is in the very forefront of possibilities, according to the latest word from Chicago. Mr. Fairbanks has much first choice support all over the country, it is stated, and it is now apparent that he is the second choice of more men in more localities than any other man who is mentioned. Fairbanks boosters are elated with his prospects and believe that he will receive heavy support when the balloting begins.

On the face of it, it doesn't appear that the president will have a very difficult time in explaining to Carranza why the American troops still remain in Mexico. In fact, Carranza might have found out for himself if he had only looked around near the border for a while.

If the international exchange of notes continues much longer a correspondence school for the training of prospective rulers and presidents might be a profitable venture.

Pasteurized Milk.

After a careful investigation of pasteurized milk and being convinced of the benefits derived from pasteurizing, I have purchased the best pasteurizer I could get and machinery for washing and sterilizing bottles with steam which destroys all germs. I shall endeavor to furnish good milk and good service to all.

AMBASSADOR GERARD

May Be Questioned as to Reported Interview.

Photo by American Press Association.

Washington, June 1.—James W. Gerard, ambassador at Berlin, may be asked by the state department as to the authenticity of an interview in which he is alleged to have commented on Germany's readiness to make peace. It is thought in Washington that in view of the delicate situation he could hardly have made the statements attributed to him.

Monthly Sanitary Inspection.

Sanitary Officer will start on monthly inspection Monday, June 5th and continue until entire city is covered. Ordinance requires all citizens to have water tight, covered garbage receptacles; to keep their alleys clear of barrels, boxes, garbage cans, etc. as well as all kinds of rubbish. It is unlawful to place rubbish of any kind in alley or streets unless the

same is immediately removed or destroyed by fire at expense of person depositing it there.

In short keep garbage and refuse on premises convenient to alley. Don't throw lawn mowings, brush, paper, etc. in alley or street, burn them.

We are requesting all citizens to see that their premises pass inspection in conformity with these simple

rules as provided by ordinance.

INDIANA STUDY CLUB.

The last meeting of the Indiana Study Club before the summer vacation was held this afternoon with Mrs. Lenore Swails as hostess. The year's work has been a study of the United States as seen on a series of imaginary trips and the program this afternoon was devoted to "The Old Santa Fe Trail." The responses to roll call were given by stating "What I have gained from the Year's Study." Mrs. Amy Lou Wright presented an interesting paper on "The Ancient Santa Fe Trail." "The Story of the Old Trail" was the subject of a paper by Mrs. Nora Hancock and Miss Nina Ewing told of the "Adventures Enroute." Following the close of the afternoon program the new programs containing the work for next year were distributed.

ENTERTAINED CLUB.

Miss Dora Milburn delightfully entertained the members of her Sewing Club at her home on North Ewing street this afternoon. A course luncheon was served by the hostess, after a pleasant afternoon with needlework.

JUNIOR KAFFEE KLATCH.

The Junior Kaffee Klatch was entertained yesterday afternoon by Miss Hattie Roeger, on West Second street. The afternoon was enjoyed with fancy needlework. The hostess served a charming luncheon.

QUEEN ESTHER CIRCLE.

The Queen Esther Circle of the First M. E. church will meet tonight at the home of Mrs. John H. Conner, West Seventh street.

SUGAR PRICE MAY AFFECT DEMAND FOR STRAWBERRIES

Berries of Excellent Quality Are Being Marketed—Season to Reach Height Soon.

The strawberry season will reach its height the latter part of this week or the first of next, according to the growers in this locality. Hundreds of boxes of berries are being brought to the city daily and are selling for about \$1.50 retail.

A local dealer said today that the price may drop slightly in a day or so but did not expect the retail price to go much lower. He said that on account of the price of sugar the demand for berries for preserving was not as heavy this year as usual as many persons did not believe they could put up as many as they have in the past. This condition, he thought, would tend to bring the price down slightly, but said that thus far the demand was about normal.

One on Grandmother.

Bobby (to grandmother)—Grandma, have you ever seen an engine wagging its ears?

Grandma—No, nonsense, Bobby, I never heard of an engine having any ears.

Bobby—Why, haven't you ever heard of engineers?

LIBRARY NOTES.

NEW BOOKS.

Three new titles are added this week: "Seventeen; a tale of youth and summer time and the Baxter family, especially William," by Booth Tarkington, is listed as one of the ten best sellers for last month. "Uncle Sam's modern miracles," by W. A. DuPuy describes the humanitarian work of the federal government in conquering contagion, revealing weather secrets, transforming the deserts, recompensing the Indians, smoothing country roads, and performing other duties which are vital to the ordinary citizen. This book will interest the 5,000 persons who visited the government's Safety First exhibit on Monday. "The Dutch Twins," by L. F. Perkins, is a delightful story of little Kit and his sister Kat, who live in Holland. It is always popular with boys and girls.

The meeting at Vevay was unusually well attended. More than half of the delegates were members of library boards who were seeking new ideas which would enable them to broaden the sphere of usefulness of the institutions they represented. And they were not disappointed, for there was a free exchange of practical ideas which repaid each one for coming.

Our patrons will be glad to know that the interior of the building is being redecorated, and we hope they will be patient with the inconvenience they may be put to for the next few days, until we can bring order out of chaos.

WOMAN'S PAGE

Character of the Housewife Shown by Appearance of Home

(Contributed.)

Few women may realize the truism, but the fact remains nevertheless, that the character of the housewife in almost every instance is portrayed by the appearance of her home. A visitor in a strange house involuntarily forms an opinion of the housekeeper by the manner in which the furniture is arranged, the decorations on the wall and the general appearance of the room which she first enters. If, perchance, this room for any reason beyond the control of the housekeeper is temporarily out of order, the first impression of the visitor will be changed when she enters another room of the same house and finds every article of furniture carefully placed and the general tone one of system and harmony.

I realize as well as any one that a house cannot be kept in the way the housewife wants it all the time, but it can be kept that way part of the time. Frequently visitors are too hasty in forming opinions based on the appearance of the home but that fault lies with the visitor's characteristic of reaching conclusions too quickly and only serves to prove that every housewife ought to keep her home in an orderly condition as far as possible all of the time.

The home is the one place where the house has an opportunity to express her ideas. If the rugs are disordered, the pictures hanging lopsidedly, the books left open on the dust covered table and the chairs are all shoved together in one end of the room you can put it down that the housewife does everything else in life about the same way she keeps house. Neatness is an element of character the same as goodness and

I don't know but that cleanliness is almost as important as goodness. As a usual thing, a woman who keeps a house neat and clean possesses the characteristics that are admired in womanhood. The converse of this statement is left with the reader.

Expensive furniture and costly draperies are not essential to the general appearance of the house. It is true that they give it a touch of luxury, but it is easy to overdo this to such an effect that the whole effect is entirely lost. Some of the most attractive homes I have ever visited were fitted out with inexpensive furniture and very little of it, but the general arrangement was excellent and commanded attention as soon as one entered the room. Such homes are usually in charge of women who follow the same rules of simplicity in their own dress and whose personalities are as charming as the home which they have fitted up. On the other hand homes which show lack of care are arranged by housewives who care little for appearance, which characteristic in almost every case is shown by the housewives themselves.

The home above all places on earth should be attractive. It is the gathering place for the entire family. It is the one spot that is sought in later years when the family is separated. It is the realm wherein the brightest hours of happiness are enjoyed and the place that is first remembered by every man and woman in recalling the years that have flitted by. The home is the greatest institution and the most influential institution in all the world, and it ought to be made the most attractive.

Materials for the Summer Dress

A very pretty and summery dress of plain and dotted organdie achieves fine style by combining these familiar materials. Organdie in cottons, as taffeta in silks, has proved peculiarly well adapted to the styles of today. The originality of the model lies in combining the plain and dotted surfaces so that they play parts of equal importance, and it suggests the use of other goods in the same way.

In the model shown the body and skirt are of the plain organdie. Five graduated ruffles of the dotted organdie encircle it, the first and widest about the hem and the narrow fifth ruffle at the waist line. The underskirt is gored and gathered to flare. Its crispness and that of the ruffles is almost equivalent to the effect of erinoline.

The three-quarter length sleeves and square cape of the dotted organdie are edged with narrow ruffles

made of it. The throat opens with a shallow V. A belt of ribbon in any color desired may be worn with this dress. White moire, corded near the edges, makes that shown in the picture. Silk stockings and white buckskin or canvas slippers will finish the pretty toilette suitable.

Among the new summer goods there are plain voiles and lawns in beautiful colors with which dainty interpretations of Scotch plaids may be found in light tints and varied colors. Something very distinctive and original might be made by combining these in the manner shown in this organdie dress. Then there are the crossbar and striped organdies, which might be used instead of the more familiar dotted varieties. They are sherrer than chiffon, the daintiest of all cotton, weaves, and retain the crispness which distinguishes the plain material. Nothing could be better for a graduating gown.

then place in sun until the spots disappear.

To keep brass beds and other kinds of brass work from tarnishing, and also to avoid frequent polishing, the brass should be lacquered with gum shellac dissolved in alcohol. The lacquer should be applied with a small paint brush. Ten cents of it will lacquer a bedstead.

Always boil new ironware before using it.

Some Hints for the Spring Bride

(By Barbara Boyd.)

Many a newly-wed and many a bride-to-be is planning a new home just now. For most of them it is quite a prodigious undertaking; because of lack of experience for some, and for others, because funds are not adequate to desires. For all, when once in the maze of it, there is apt to be a more or less sense of bewilderment and confusion. Thought settles upon definite things rather than upon a comprehensive survey, simply for the sake of resting somewhere; and so when the house is at last furnished, there are gaps and discrepancies and the household machinery does not run smoothly because there has not been a sufficiently careful and comprehending study of the new life as a whole, before the details were planned for.

A well-known domestic science teacher gives some useful suggestions along these lines.

"When you plan to furnish your new home," she says, "and have just so much money to spend, begin by making two lists; one, of the things you want, and the others of the things you have to have. Cross off from the one and add to the other, and you will get the best results from your money."

"Plans for furnishing a home should begin with the kitchen. A housewife spends a good share of her time in the kitchen, and she owes it to herself to make it as attractive and easy to work in as possible."

"Too many young housekeepers plan their furnishings and homes with a view to what their friends will say about it and not enough attention to the real needs."

"Too many of us start furnishing our homes where our friends will see them first—the front door; and when we get to the kitchen there is nothing left."

Not many of us follow these suggestions when planning to furnish, do we? We usually do just the opposite. We think of our living room or parlor first, and of our kitchen

last. Many of us call to mind how friends, or neighbors, or some social leader whose favor we are anxious to gain, furnishes their homes, and we try to be on a par or to excell. We do not consider first and comprehensively our own needs, our own funds, or our own ideals of living, and make our home fit these solely. We are too apt to furnish some part of our home at least from the viewpoint of "what others will think."

But some such comprehensive view of actual ends is essential to successful home furnishing. The family is to live in the home, not the neighbors. It is going to have a tremendous influence in shaping the lives of its inmates. The food cooked, the manner of serving it, the comfort and attractiveness of the home will all be great factors in determining the happiness that reigns there. These things are far more important than whether the living room is as elegant as Mrs. Blank's across the street, or whether the furniture is Jacobean or Colonial.

It is more essential to study the actual needs and tastes of those who are going to live in the house than it is to know the latest styles in brass beds and cretonnes. And it is more important to spend the furnishing allowance to get the things that are essential to comfort and health than it is to have a few impressive show pieces. This does not mean that the house need not be artistic and charming. Harmonious colors, and good taste in the lines of the furniture and of the prints on the walls are not altogether a question of expense. But they are a matter of careful thought. And to get a home that will mean health and comfort and charm means that one must study one's individual problem, and not furnish according to the ways others have furnished, and not sacrifice the kitchen and other parts of the home that contribute to the real life of the home, for the sake of those that are only occasional in their service.

Margaret Mason's Fashion Letter

New York, June 1.—To be on the fringe of society is the last thing one could wish, but to have on the fringe of fashion is the latest thing one could wish.

Indeed it seems as if fringe were infringing on the popularity of all other trappings.

The fringed frocks are omnipresent and boasts anything from tiny edging of vivid hued yarn fringe to a deep fringe of silk, either black or of a tone to match or contrast with the gown.

It is used effectively on the bottoms of the wide skirts and to edge the bell shaped sleeves.

* One stunning evening model shows an entire overskirt of knotted silk fringe of yellow, black, blue, green and old rose over a eticoat of turquoise-blue chiffon. The sleeves are mere shreds of fringe and the apology for a bodice is a scrap of the turquoise chiffon.

The new wide cape collars are edged with narrow, colorful fringe; hats have a narrow yarn fringe edging and I even glimpsed a swagger damsel who wiped her up-tilted up-to-date nose on a handkerchief of pale mauve with a tiny old blue edging of thread fringe. Fringe is certainly up to snuff.

On the loose long taffeta coats and wraps either for day or evening wear the fringe is vying with the pinked ruchings as a finish but it is as a finish for a parasol perhaps that fringe reaches its truly highest point.

One smart sunshade of emerald green taffeta is built on the flat, many ribbed Chinese parasol lines with a blunt little snub nose ebon ferule and a long knob-finished handle of the same glossy black.

A bright green silk cord is knotted round the handle, with a fitting loop through which its owner's fair arm is meant to stick when she shuts up her sunshade in shady byways and chooses to dangle it at arm's length.

The real finishing touch of this adequately lovely parasol however, is an edging of three-inch black silk fringe that brooks no infringement of the sun's rays across the summer girl's countenance.

A zebraesque sunshade is one of black and white striped taffeta. The stripes radiate outward from the center and end in a fringe of alternate black and white striping to match the silk. The handle to this is of white with a black knob at the top.

A cerise parasol fringed like the black and green one is also very stunning though a bit prone to cast a too rosy glow over a healthy countenance. No one may expect to look

pale and interesting under cover of a cerise sunshade.

A shell pink taffeta sunshade that is a mass of petal shaped scollops like a huge pink rose just adds the pink of perfection to a summer toilette of white net and ink picot ribbon, but a shade deeper it is not wiser to go.

A purple satin parasol veiled in a film of black Spanish lace with a quaint purple glass knobbed stick, in a Fifth avenue window is a replica of great grandmother's that now moulders in the attic and proves the aphorism that there's nothing new under the sun—not even a 1916 parasol.

KEROSENE OIL IS GREAT HELP TO ALL HOUSEWIVES

Coal oil will help the housekeeper out of many difficulties. A spoonful of kerosene added to a kettle of very hot water will make windows, looking glasses and picture glasses bright and clear. Use a small clean cloth, wring it dry and rub it over the glass, after wiping down the framework with an oiled cloth. Then proceed to the next window and treat it similarly on both sides. After that go back to the first one and wipe it dry with a large clean cloth. No real polishing is required and the windows or glass will look clear and shiny.

Kerosene will clean your hands better than anything else after blacking a range or stove. Pour a little in the water, wash your hands in it, then wash them in tepid water and finally with plenty of soap and a stiff brush in hot water. Finish up by rubbing the hands with lemon and rosewater and glycerin.

When your kitchen sink is rusty, rub it over with kerosene. Squeaky shoes are cured by dipping the soles in kerosene. Enough to reach the top of the soles without reaching the upper leather.

The white spots appearing in the spring on the lining of your refrigerator will disappear if you rub the zinc with kerosene. Leave the refrigerator open several hours, then wash with water, soap and some ammonia. The refrigerator will then be clean and sweet and all spots will have disappeared.

LEATHER MILDEW REMOVED BY USING PURE VASELINE

Mildew on leather may be removed with a little pure vaseline. Rub this into the leather until quite absorbed, and then carefully polish with a clean chamouis leather.

Articles that are mildewed should be boiled in buttermilk. The same process will effectively bleach materials that have grown yellow from

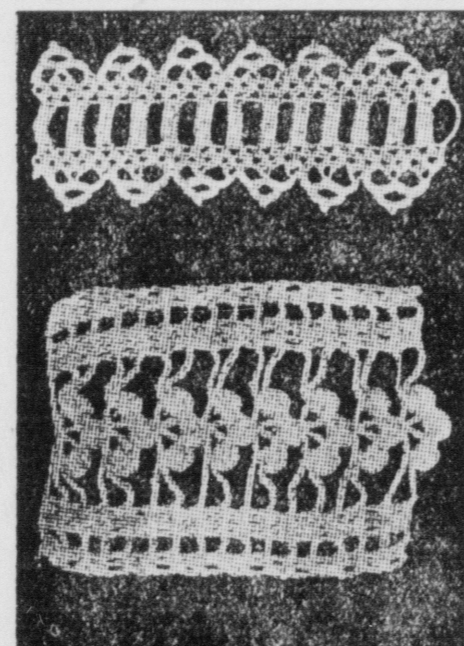

lack of use. Rinse well in warm water after boiling and hang in the sun.

Or wet with soapsuds, lay in sun; spread with a paste of soft soap and powdered chalk and sun it; soak in buttermilk and sun, or put a spoonful of chloride of lime into a quart of water, strain and dip the mildewed cloth into it. Repeat if necessary.

Another remedy for mildew is wet the article and rub on it equal parts of soap and chalk mixed together;

Favorite Recipes

CASSEROLE OF LAMB CHOPS.

Two pounds of chops. Onion, cooked potato. Four tablespoonsful of coarsely chopped fried bacon. Friend potatoes. Two tablespoonsful of butter. Three tablespoonsful of brown sauce. Salt and papper. The chops are cut into neat shapes, seasoned, and then fried on one side in a little butter. Then the chopped onion and the brown sauce added and allowed to boil, when the rest of the vegetables, except potatoes, are added. This hot mixture is poured into the casserole and the chops placed on top, and the dish covered and cooked for fifteen minutes. When ready to serve the fried potatoes can be placed on top. This dish, like many other casserole meats, is even more flavorful than if ordinarily prepared. It is easy to serve, both because waiting and reheating do not spoil it, and also because (being served in the same dish in which it is cooked) it does not necessitate the use of several serving dishes in order to serve individuals dining at different times during the evening.

STRAWBERRY FRITTERS.

One cupful flour, three-eighths teaspoonful salt, one teaspoonful baking powder, two eggs, milk, one-half box strawberries, three tablespoonsful sugar, frying fat. Add to the flour, salt and baking powder, sifted together, the beaten eggs and a very little milk, to form a batter. Cut strawberries into halves, sweeten them, and add to the batter. Drop by spoonfuls into a frying pan in which is a little hot fat; cook until golden brown on both sides; then sprinkle with sugar and garnish with a few fresh berries.

SOUTHERN SWEET POTATOES.

Boil the potatoes until tender, let stand in the water a few minutes, then pour off the water and let them stand on the back of the range for awhile to steam; for a pint of sliced potatoes use two tablespoons of butter, melted in a frying pan, and when hot enough lay in the potatoes and sprinkle with two tablespoons of brown sugar; sprinkle over this a teaspoon of powdered cinnamon and let brown nicely.

FROZEN STRAWBERRY CREAM.

Two cupfuls sugar, one cupful water, one quart strawberries, one cupful cream. Make a sirup by boiling together the sugar and water; add the berries cut into halves and

simmer them in the sirup for fifteen minutes. Remove the fruit, add the cream to the remaining sirup, cool and freeze rather soft. Now add the strawberries, pack down closely, and set aside for two hours to ripen. —Pictorial Review.

HOMINY CUTLETS.

Wash the hominy thoroughly, then let it soak all night. Place in a jar, allowing one quart of water or vegetable stock to four ounces of hominy (weighing when dry); season with pepper and salt, cook gently in over for three hours. Look at it now and then to see if more water or stock is needed. Spread out on a dish and when cool form into cutlets; egg, crumb and fry. Serve with tartar sauce.

PIMENTO AND CHEESE SALAD.

Drain the liquor from a small bottle of pimentos and rinse them. Cut each in half carefully and add to two tablespoonsful of finely chopped celery. Have ready half a cup of finely-broken cheese and bind them together with any preferred dressing. Make into small balls and serve three in a nest of crisp lettuce to each person.

BANANA CREAM.

After peeling bananas mash with an iron or wooden spoon. Allow equal quantities of bananas and sweet cream; to one quart of the mixture allow one-quarter of a pound of sugar. Beat them all together until the cream is light.

BUTTERED TOAST.

Cut slices rather more than one-fourth of an inch thick from a stale loaf, trim off crust, toast carefully on both sides before a clear fire; have a hot plate ready to put them on and butter according to taste.

Home-Made Bed Comforter.

Take all the castoff stockings, cut the feet off, slit up the legs, lay them out flat on a sheet, baste them on each one to keep in place. Put at least four or five layers of them. You can help out with pieces from leftover woolen underwear or old sweaters. Cover over with another old sheet and sew all through good and firm. Make a slip cover of some cheap washable goods and fasten here and there with buttons. The above made in squares and joined together comes easiest.

Insects dislike both salt and alum.

Study Food Values

Food provided for the family table deserves the careful thought of every housewife. Do you use thought when buying baking powder?

The quality of cake, biscuits and all quickly raised flour foods depends largely upon the kind of baking powder used.

Royal Baking Powder is made from cream of tartar derived from grapes. It is absolutely pure and has proved its excellence for making food of finest quality and wholesomeness for generations.

Royal Baking Powder contains no alum nor phosphate.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

WILLIAM GUGGENHEIM

Sues Five Brothers For a Share of \$75,000,000.

Photo by American Press Association.

New York, June 1.—William Guggenheim has won a point in his suit to recover \$10,000,000 from his five brothers—Isaac, Morris, Simon, Daniel and Solomon Guggenheim as his share of \$75,000,000 alleged to have been gained by them in an enterprise known as the "Chuquicamata Prospect." Supreme Court Justice Benedict in Brooklyn denied a motion to dismiss the case on the ground of no cause of action.

WAITE TURNS TO RELIGION

Again Declares He Is Willing to Die For Crimes.

New York, June 1.—That Dr. Arthur Warren Waite, convicted of murder, and who is to be sentenced to die, has embraced religion, came from his own lips in the Tombs prison, where he has been kept since his arrest a few weeks ago.

He has been looked upon as a stoic and without nerves, but when he spoke of his wife in an interview on Tuesday and cried, it was regarded as a sign that he might make announcement of almost anything before going to the cell at Sing Sing from which he says he hopes there will be no escape for he deserves to die for the killing of his father and mother-in-law.

Church Goer Fined For Speed.

Huntington, W. Va., June 1.—Arraigned on a charge of automobile speeding, J. C. Schmidlapp said he was late for church and it was the first time he had attended in four years. "That's no excuse," said the magistrate. "I fine you \$2 and costs."

ELECTRIC FAN WEEK

This Is Electric Fan Week

We are ready with the finest selection of fans we have ever carried.

These fans are all priced at the very lowest figures—they will cost you no more today than in July. Why not have the use of one these hot days?

Come in and look them over.

Prices range from \$10 to \$21, according to size.

The Interstate Public Service Co.
